PILATES

Pilates works to strengthen the body from the inside out, targeting the deep postural muscles of the core, which stabilize and protect the spine. When practiced regularly Pilates rebalances and re-educates the body into perfect alignment. Pilates is a safe, low impact, form of exercise which is suitable for all levels of fitness and ability.

Pilates is particularly beneficial for those seeking relief from back and/or joint pain, postnatal recovery, abdominal toning and strengthening, recovery from injury. If you are unsure about whether Pilates is suitable for you, please feel free to get in touch.

Pray with us for growth

Gracious God, grant us the imagination to see fresh possibilities for growth and the passion to bring them to birth.

Deepen our commitment to your ways; expand our partnership in your cause; increase our influence for your purpose; and add to the numbers of those who acclaim you as Lord.

Lead us from fear of failure to that confidence which flows from faith and to lives of fruitfulness and joy.

In the power of your Spirit help us to create communities of wholeness with Christ at the centre; for in his holy name we ask. Amen
