22nd April is Earth Day ~ *There is a link on our website*

One action you could do is download the [Creation Care Calendar](#) that has lots of suggestions and links for actions to

care for creation all year round.

The National Church has created a new interactive Creation Care calendar for 2026, bringing together key environmental, climate and sustainability dates and weeks from across the year.

The calendar highlights national and international moments linked to climate action, biodiversity, energy, food systems and care for creation, making it a useful planning tool for churches, Eco Church teams and schools. Each entry includes links to further information and resources, helping you explore the background to each day and how it might be marked locally.
