Growing Hope is a one-day eco resource and retreat day hosted by Hazelnut, a community rooted in faith, land, and community building on **Saturday 16 May at Hazelnut Bristol**.

The day is for churches and communities who want practical ideas for engaging with creation, thoughtful theological input, and simple practices they can take back to their context.

It offers time to learn from others, space to pause and breathe, chances to connect, and room to slow down and reflect on building communities of hope in the midst of change.

Whether your church is just beginning to explore ecological work or already has projects growing, you are very welcome. [Registration here](#)
