Looking after wildlife in the heat. Times of drought and dryness can be dangerous for wildlife. Provide water for birds and insects - put a dish of water out to help wildlife stay hydrated. Insects, small mammals, birds, and even badgers, foxes, and deer could benefit. A stone in a plant saucer helps bees to perch and drink without drowning. These small actions make a big difference and are just some of the ways we can live out our calling to care for God's creation. See our blog on looking after wildlife in the heat for more warm weather eco tips: arocha.org.uk/looking-after-wildlife-in-the-heat/.

Working towards Eco Church Silver Award - If any church members have joined local events engaging in social and environmental justice or campaigns for nature, please could you let **Mary Rose know**.
